- 1 Refinery level data.
- 2 Quarterly sulphur data by gasoline grades are estimates only.
- 3 Primary suppliers that supplied more than 400 cubic metres of gasoline in the previous calendar year are to report sulphur data by gasoline grade (i.e., regular, mid-grad and premium). Honda of Canada Manufacturing imported less than 400 cubic metres in the previous calendar year and is therefore not required to report sulphur levels by gasoline grade.
- 4 Reported as Estimated Average Sulphur Level (not pool average).
- 5 Olco Petroleum Group Inc. did not import gasoline into Ontario in the first quarter of 2001.
