June 29, 2001

Dear Dr. Williams,

As you are aware, Provincial Officers with the Ministry of the Environment collected samples from the Port Colborne Tall Ships parking lot. A report summarizing the chemical analysis of the samples was forwarded to the City of Port Colborne June 27, 2001. For your information, attached is a copy of that report. If you have any questions please call Dave McLaughlin (416-723-0420).

Sincerely,

---

Jim Smith, Director  
Standards Development Branch
