1. Anonymous

1978. Air Quality Assessment Studies in the Sudbury¹ area - Volume 1. Air Quality Monitoring for the Sudbury area (1976-1977). Ontario Ministry of the Environment, Northeastern Region, Sudbury, Ontario.

2. Costescu, L.M. and Hutchinson, T.C.

1972. Ecological consequences of soil pollution by metallic dust from the Sudbury smelters. Proc. 18th Annual Technical Meeting of the Institute of Environmental Sciences, New York May 1-4, 1972. pp. 540-545.

3. Cox, G.L.

1975. The Effects of smelter emissions on the soils of the Sudbury area. M.Sc. Thesis, University of Guelph, Guelph, Ontario. 236 pp.

4. Dreisinger, B.R. and McGovern, P.C.

1964. Sulphur dioxide levels in the Sudbury area and some effects of the gas on vegetation in 1963. Ontario Department of Mines, Sudbury, Ontario. 33 pp.

5. Dreisinger, B.R. and McGovern, P.C.

1970. Monitoring atmospheric sulphur dioxide and correlating its effects on crops and forests in the Sudbury area. In Proc. Conference on Impact of Air Pollution on Vegetation, Toronto. 23 pp.

6. Dreisinger, B.R. and McGovern, P.C.

1971. Sulphur dioxide levels and vegetation injury in the Sudbury area during the 1970 season. Ontario Department of Energy and Resources Management, Sudbury, Ontario. 38 pp.

7. Gorham, E. and Gordon, A.G.

1960. Some effects of smelter pollution northeast of Falconbridge, Ontario. Can. J. Bot. 38: 307-312.

8. LeBlanc, F., Rao, D.N. and Comeau, G.

1972. The epiphytic vegetation of Populus balsamifera and its significance as an air pollution indicator in Sudbury, Ontario. Can. J. Bot. 50: 519-528

9. Linzon, S.N.

1958. The influence of smelter fumes on the growth of white pine in the Sudbury region. Joint Publ., Ontario Dept. Lands and Forests, Ontario Dept. Mines, Toronto.

10. Linzon, S.N.

1971. Economic effects of sulphur dioxide on forest growth. J. Air Pollut. Control Assoc. 21: 81-86.

11. McGovern, P.C. and Balsillie, D.

1973. Sulphur dioxide (1972) - Heavy metal (1971) levels and vegetation effects in the Sudbury area. Air Management Branch, Ontario Ministry of the Environment, Sudbury, Ontario. 50 pp.

12. McGovern, P.C. and Balsillie, D.

1975. Effects of Sulphur Dioxide and Heavy Metals on Vegetation in the Sudbury Area (1974). Ontario Ministry of the Environment, Northeastern Region, Sudbury, Ontario. 33 pp.

13. Potvin, R.R. and Balsillie, D.

1976. Air quality monitoring report for the Sudbury area (1975). Ontario Ministry of the Environment, Northeastern Region, Sudbury, Ontario. 88 pp.

14. Tebbins, B.D. and Hutchinson, D.H.

1961. Application of air quality standards to a community problem. Journal of the Air Pollution Control Association, 11: 53-56.

IX ACKNOWLEDGEMENTS:

The authors, W. D. McIlveen and D. Balsillie, wish to express their thanks to: Mr. W. J. Gibson, Manager, Technical Support Section for supervision, advice and support; Dr. N. Linzon and staff of the Phytotoxicology Section, Air Resources Branch for technical advice and handling of the vegetation and soil samples; Mr. J. Bishop and staff of Air Quality Laboratory for chemical analysis of vegetation and soil samples (Mr. R. Wills); Mr. K. Waldie and his staff for maintenance of the air quality monitoring equipment; R. Potvin and Mr. N. Jain for compiling the air quality data; Mr. P. McGovern for assistance with field work and S. Legault and Ms. H. Chamberland for secretarial assistance. As a result of the co-ordinated efforts of all these people the presentation of this report was made possible.
