Advisory
Committee**

April 15, 1985

The publication of this document has been made possible by a grant from the Ontario Ministry of Northern Affairs.

Acknowledgements

Many individuals and organizations have made this program possible. To the extent possible, these contributions are acknowledged.

To all those who worked directly in the program manually moving material, planting trees or providing administrative support; without your efforts none of this transformation would have taken place.

To all the agencies who provided financial support; without your input the program would not have started or continued.

To every Vegetation Enhancement Technical Advisory Committee member past and present who freely provided necessary professional advice; without your vision for a better environment and the technical advice provided, the program may not have been conceived or implemented properly.

To the Regional Municipality who undertook the operation of the program; without your courage to accept the responsibility involved in such a large undertaking the program could not have developed, operated and succeeded.

To all other groups or individuals who contributed in some way; without your support, program operation would have been more difficult.

To each of you, the program organizers wish to extend a sincere thank you and express their deep gratitude for assisting in helping make the Regional Municipality of Sudbury a better place.

Photo Credits

The following individuals and institutions are thanked for making available the photographs which appear within this report. These include: INCO p. 7; B. Michelutti p. 29; K. Winterhalder p. 10, 11, 28, 29, 42, 49; Sudbury Public Reference Library - Sudbury Collection p. 3; Ontario Ministry of Natural Resources p. 5; and the Regional Municipality of Sudbury p. 1, 5, 8, 11, 12, 14, 15, 23, 27, 28, 29, 30, 31, 32, 34, 35, 36, 38, 40, 42, 49.
